

NAR's Green Designation Core Course

Be the Green Leader in Your Community

The Green designation is the only real estate designation addressing today's environmental concerns. This designation is designed for real estate agents and property managers who want to focus on working on leading the community to a more sustainable future. When you earn the Green designation you'll gain:

- A comprehensive understanding of what it means to go green and the concerns of today's consumer seeking green knowledge.
- Valuable real estate education that broadens your ability to serve your clients, prospects and associates.
- Ongoing specialized training and resources that help you stay on top of the green real estate issues and trends.
- Access to customizable members-only marketing tools to help you build your business.

To receive the Green designation, you must complete the two day core course and successfully pass the exam, as well as complete one elective course (separate fee).

For more information on the Green designation including designation requirements, core course outlines, and course electives please visit <http://www.car.org/education/designations/greendesignation/>
