

Training For

Dear EBRDI Participant/Subscriber,

East Bay Regional Data would like you to join us for a Watch and Learn seminar/demo on the new MLS systems that are currently available. MORE brings you login access to San Francisco MLS (SFAR), Bay Area Real Estate Information Services (BAREIS), MetroList, and MLS Listings, Inc. We would like to assist you in making the most of these new resources.

The seminar will be comprised of two sections: Part one will focus on the Rapattoni system employed by SFAR, BAREIS, and MetroList. Part two will focus on the system used by MLS Listings, Inc. Approximately 60 minutes will be devoted to the workings of each.

Subject matter will include introduction to basic functionality such as search, listing input, listing maintenance, and auto-notifications. We will show you where to access online help and tutorial information in each of the surrounding MLS's, among other useful tips.

Current seminar schedule
